

# PDC WRISTBANDS

COMPATIBLE WITH THE BROSELOW® SYSTEM

Accurate identification is crucial when it comes to pediatric resuscitation. PDC's colored Sentry® SuperBand® Wristbands can be used in conjunction with the Broselow®/Hinkle Pediatric Resuscitation System, providing a quick reference for accurate medication administration and proper equipment usage.

The Broselow system is an easy-to-use, color-coded information and reference kit that provides doctors and nurses with the proper equipment sizes, pre-calculated medication dosages, and infusion rates needed to perform resuscitation on a child according to weight.

### Product Features:

- Available in 9 colors to use in conjunction with the Broselow system.
- Large solid colored information area makes colors easily identifiable and provides positive patient identification.
- Fully adjustable, one size fits all.
- Features a snap closure for added security.
- Wristbands can be customized with text or designed to help separate "Broselow Wristbands" from other patient identification wristbands.

### Product Specifications:

- 10 1/2" overall wristband length
- 2 5/8" X 1" Information area
